Notes to the Abbreviated Accounts
for the Year Ended 31 December 2013

1. **ACCOUNTING POLICIES**

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off the cost less estimated residual value of each asset over its estimated useful life.

Land and buildings	- over period of lease
Plant and machinery etc	- 15% on cost

Expenditure of £2,000 or more on individual tangible fixed assets is capitalised at cost. Expenditure on assets below this threshold is charged directly to the profit and loss account in the period it is incurred.

Stocks

Stocks and work in progress are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Cost includes all expenditure incurred in bringing the stock to its present condition and location.

Deferred tax

Deferred tax is recognised at current tax rates in respect of all timing differences that have originated but not reversed at the balance sheet date. A deferred tax asset is only recognised to the extent that future taxable profits are expected to reverse the underlying timing difference. Deferred tax balances are not discounted.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.

Government grants

Government grants which are deemed to be revenue in nature are credited to the profit and loss account as they become receivable. Grants of a capital nature are treated as deferred income and released to the profit and loss account over the expected useful lives of the specific assets to which they relate.
