The directors acknowledge their responsibility to ensure that the company keeps accounting records in accordance with section 386 and to prepare accounts which give a true and fair view of the state of affairs of the company as at the end of the financial year and of its profit for that financial year in accordance with section 394 and which otherwise comply with the Companies Act 2006 as far as applicable to the company.

NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 OCTOBER 2011

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Turnover

Turnover represents amounts receivable for services, net of VAT.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Plant and machinery	25% Reducing balance
Equipment	33 1/3% Reducing balance
Motor vehicles	25% Reducing balance

1.4 Investment properties

Investment properties are included at their estimated open market value assuming vacant possession as at the balance sheet date.

In accordance with FRSSE (effective April 2008):

(i) investment property is revalued annually and the aggregate surplus or deficit is transferred to a revaluation reserve, and

(ii) no depreciation or amortisation is provided in respect of investment property.

In accordance with FRSSE (effective April 2008), no depreciation is provided in respect of investment properties. This is a departure from the Companies Act 2006, which requires all properties to be depreciated. Such properties are not held for consumption, but for investment, and the directors consider that to depreciate them would not give a true and fair view. Depreciation is only one amongst many factors reflected in the annual valuation of properties and accordingly the amount of depreciation, which might otherwise have been charged, cannot be separately identified or quantified. The directors consider that this policy results in the accounts giving a true and fair view.

1.5 Stocks

Stocks are valued at the lower of cost and net realisable value.

1.6 Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1.7 Pensions

The pension costs charged in the financial statements represent the contributions payable by the company during the year.

1.8 Deferred taxation

Deferred taxation is provided in full in respect of taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes. The deferred tax balance has not been discounted. Deferred tax assets are recognised only when recovery is likely.
