STATEMENT OF DIRECTOR'S RESPONSIBILITIES

$A^2 + B$

Company law requires the director to prepare accounts for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing those accounts, the director is required to:

- (a) select suitable accounting policies and then apply them consistently;
- (b) make judgements and estimates that are reasonable and prudent;
- (c) state whether or not applicable United Kingdom Accounting Standards have been followed, subject to any material departures disclosed and explained in the accounts; and,
- (d) prepare the accounts on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The director is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and which enable him to ensure that the accounts comply with the Companies Act 1985. He is also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

1. ACCOUNTING POLICIES

(a) *Basis of accounts preparation*

The accounts are prepared under the historical cost convention and in accordance with applicable accounting standards.

(b) *Depreciation*

The cost of fixed assets is written off by equal monthly instalments, other than land, over their expected useful lives as follows:

Plant and equipment	5 years
Hire equipment	5 years
Motor vehicles	4 years
Buildings	50 years
Fixtures and fittings	5 years

In accordance with Statement of Standard Accounting Practice No 19, no depreciation is provided in respect of investment properties. This is a departure from the requirement of the Companies Act 1985 which requires all properties to be depreciated. Such properties are not held for consumption but for investment and the director considers that to depreciate them would not give a true and fair view.

(c) *Deferred taxation*

Provision is made for deferred taxation, using the liability method, on all timing differences to the extent that it is probable that the liability will crystallise.
