NOTES TO THE ACCOUNTS
FOR THE YEAR ENDED 31 JANUARY 2018

1. ACCOUNTING POLICIES

1a. General Information And Basis Of Preparation

The company is limited by shares and incorporated in Scotland. The address of the registered office is given in the company information on page 1 of these financial statements. The financial statements are presented in sterling which is the functional currency of the company and are rounded to the nearest £1.

The financial statements have been prepared in accordance with Financial Reporting Standard FRS 102 Section 1A Small Entities. There were no material departures from that standard.

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented unless otherwise shown.

1b. Tangible Assets

Tangible fixed assets are stated at cost (or deemed cost) or valuation less accumulated depreciation and accumulated impairment losses. Cost includes directly attributable to making the asset capable of operating as intended.

Depreciation has been provided on all tangible fixed assets, at rates calculated to write off the cost, less estimated residual value, of each asset on a systematic basis over their expected useful lives as follows:

Land And Buildings	straight line	2%
Plant And Machinery	straight line	33.33%
Commercial Vehicles	straight line	25%

1c. Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell (net realisable value). Overheads are charged to profit or loss as incurred. When stocks are sold, the carrying amount of those stocks is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of stocks to net realisable value and all losses of stocks are recognised as an expense in the period in which the write-down or loss occurs. The amount of any reversal of any write-down of stocks is recognised as a reduction in the amount of stocks recognised as an expense in period in which the reversal occurs.

1d. Debtors Receivable And Creditors Payable Within One Year

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in the profit and loss account in other administrative expenses.

1e. Taxation

Current tax represents the amount of tax payable or receivable in respect of the taxable profit (or loss) for the current or past reporting periods. It is measured at the amount expected to be paid or recovered using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax represents the future tax consequences of transactions and events recognised in the financial statements of current and previous periods. It is recognised in respect of all timing differences, with certain exceptions. Timing differences are differences between taxable profits and total comprehensive income as stated in the financial statements that arise from the inclusion of income and expense in tax assessments in periods different from those in which they are recognised in the financial statements. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of timing differences. Deferred tax on revalued, non-depreciable tangible fixed assets and investment properties is measured using the rates and allowances that apply to the sale of the asset.

1f. Turnover

Turnover is measured at the fair value of the consideration received or receivable net of VAT and trade discounts. The policies adopted for the recognition of turnover are as follows: Sale and hire of goods Turnover from the sale and hire of goods is recognised when significant risks and rewards of ownership of the goods have transferred to the buyer, the amount of turnover can be measured reliably, it is probable that the economic benefits associated with the transaction will flow to the company and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

1g. Employee Benefits

When employees have rendered service to the company, short-term employee benefits to which the employees are entitled are recognised at the undiscounted amount expected to be paid in exchange for that service.

2. EMPLOYEES

	2018	2017
	No.	No.
Average number of employees	1	1
