Notes to the Abbreviated Accounts
for the Year Ended 30 November 2013

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant & machinery	- 25% on reducing balance
Hire stock	- Straight line over 8 years
Motor vehicles	- 25% on reducing balance
Office equipment	- 20% on cost and 10% on cost

Investment property

Investment property is shown at most recent valuation. Any aggregate surplus or deficit arising from changes in market value is transferred to a revaluation reserve.

No depreciation is provided for in respect of investment properties in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008). Such properties are held for their investment potential and not for consumption within the business. This is a departure from the Companies Act 2006 which requires all properties to be depreciated and the directors consider that to depreciate them would not enable the financial statements to give a true and fair view. Investment properties are stated at their market value at the balance sheet date.

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.
