WEST HIGHLAND GAS LIMITED

Notes to the Financial Statements **For the year ended 30 June 2003**

1 Accounting Policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention.

The company has taken advantage of the exemption in FRS1 from the requirement to produce a cashflow statement because it is a small company.

1.2 Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the year.

1.3 Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Leasehold properties	-	straight line over the life of the lease
Commercial Vehicles	-	25% straight line
Fixtures, fittings and equipment	-	25% straight line
Motor cars	-	25% straight line

1.4 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.

1.5 Stock and work in progress

Stock is valued at the lower of cost and net realisable value.

1.6 Deferred taxation

Provision is made for deferred taxation using the liability method to take account of timing differences between the incidence of income and expenditure for taxation and accounting purposes except to the extent that the directors consider that a liability to taxation is unlikely to materialise.

1.7 Pensions

The pension costs charged in the financial statements represent the contribution payable by the company during the year.
