Notes to the Abbreviated Accounts
For The Year Ended 30 November 2012

1. ACCOUNTING POLICIES

Accounting convention
The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover
Turnover represents amounts receivable by the company from rental of property.

Tangible fixed assets
Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings	- 25% on cost
Computer equipment	- 33% on cost

Investment property
In accordance with the Financial Reporting Standard for Smaller Entities the company's property, which is held for long-term investment, is included in the balance sheet at the open market value and is not depreciated. The surplus or deficit on revaluation of the property is transferred to a revaluation reserve. This policy represents a departure from the Companies Act 1985, which requires depreciation to be provided on all fixed assets. The directors consider this policy is necessary to give an overriding true and fair view as current values and changes in current values are considered more significant than the calculation of systematic annual depreciation. Depreciation is only one of many factors reflected in the valuation and the amount which might otherwise have been charged cannot be separately identified or quantified.
