UNAUDITED ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements are prepared under the historical cost convention and the Financial Reporting Standard for Smaller Entities (effective April 2008).

GOING CONCERN

At the balance sheet date the company had a deficiency of funds of £233,108. The company is reliant on the support of the directors to meet its liabilities as they fall due. The directors have undertaken to support the company for a minimum of 12 months from the date of signing the financial statements. The directors therefore consider that it is appropriate for the financial statements to be prepared on a going concern basis.

COMPLIANCE WITH ACCOUNTING STANDARDS

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

TURNOVER

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

TANGIBLE FIXED ASSETS AND DEPRECIATION

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Fixtures, fittings & equipment	20 - 33 % straight line

LEASING

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

INVESTMENTS

Long term investments are classified as fixed assets. Short term investments are classified as current assets.

Fixed asset investments are stated at cost in the company balance sheet. Other investments listed on a recognised stock exchange are valued at the lower of cost and mid-market value at the balance sheet date. Unlisted investments are stated at cost.

Provision is made for any impairment in the value of fixed asset investments.

PENSIONS

The company operates a defined contribution scheme for employees. The assets of the scheme are held seperately from those of the company. The annual contributions payable are charged to the profit and loss account.

DEFERRED TAXATION

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

FOREIGN CURRENCY TRANSLATION

Assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken to the profit and loss account.

Assets, liabilities, and results of overseas subsidiaries are translated at the rate ruling at the balance sheet date. Exchange differences arising are dealt with through reserves.

GROUP ACCOUNTS

The financial statements present information about the company as an individual undertaking and not about its group. The company and its subsidiary undertaking comprise a small-sized group. The company has therefore taken advantage of the exemptions provided by section 398 of the Companies Act 2006 not to prepare group accounts.
