Notes to the abbreviated accounts

For the year ending 31 January 2011

1 **Accounting policies**

Basis Of Accounting The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008). Taxation Corporation tax payable is provided on taxable profits at the current rates. Provision is made for deferred taxation in so far as a liability or asset has arisen as a result of transactions that had occurred by the balance sheet date and have given rise to an obligation to pay more tax in the future, or the right to pay less tax in the future. An asset has not been recognised to the extent that the transfer of economic benefits in the future is uncertain. Deferred tax assets and liabilities recognised have not been discounted. Pension Costs The company operates a defined contribution pension scheme. Contributions are charged to the profit and loss account as they become payable in accordance with the rules of the scheme. Leasing Commitments Rentals payable under operating leases are charged to the profit and loss account on a straight-line basis over the term of the lease. Assets held under finance leases, which are those where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet and are depreciated over their useful lives The capital element of future obligations under the lease is included as a liability in the balance sheet The interest element of the rental obligations is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Turnover

Turnover comprises commission and fees. Commission on transactions in life policies and pension contracts is recognised in the period in which the policy went on risk and is stated net of clawbacks of idemnity commission.
