1 Accounting policies

a) *Basis of accounting*

The financial statements are prepared on the historical cost basis of accounting and have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The company has taken advantage of the exemption, conferred by Financial Reporting Standard 1, from presenting a cash flow statement as it qualifies as a small company.

b) *Turnover*

Turnover represents net invoiced sales of goods and services, excluding value added tax.

c) *Depreciation of tangible fixed assets*

Depreciation is provided on all tangible fixed assets at rates calculated to write off the full cost or valuation less estimated residual value of each asset over its estimated useful life. The principal rates in use are:

Motor vehicles	20%	reducing balance
Equipment, fixtures and fittings	20%	reducing balance
Computer equipment	33%	straight line

d) *Stocks*

Stock and work in progress is valued at the lower of cost and estimated net realisable value.

Cost of raw materials is determined on the first in first out basis. In the case of work in progress and finished goods, cost includes all direct expenditure and production overheads based on the normal level of activity. Net realisable value is the price at which the stock can be released in the normal course of business, less further costs to completion of sale.

e) *Hire purchase and lease transactions*

Rentals under operating leases are charged to the profit and loss account as they fall due.

f) *Pension scheme*

The company provides a defined contribution pension scheme, the assets of which are held separately from those of the company in an independently administered fund. Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate.
