NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 APRIL 2004

1 ACCOUNTING POLICIES

(a) ***Accounting basis and standards***
The financial statements have been prepared under the historical cost convention and in accordance with applicable accounting standards

(b) ***Tangible Fixed Assets***
Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and Equipment:	25% reducing balance
Motor vehicles:	25% reducing balance

(c) ***Turnover***
Turnover represents net invoiced sales of goods, excluding value added tax.

(d) ***Current Taxation***
Corporation tax payable is provided on taxable profits at the current rate.

(e) ***Deferred Taxation***
Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. Timing differences are differences between the taxable profits and the results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognised only when it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of underlying timing differences can be deducted.

Deferred tax is not recognised when fixed assets are revalued unless by the balance sheet date there is a binding agreement to sell the revalued assets and the asset has been revalued to selling price. Neither is deferred tax recognised when fixed assets are sold and it is more likely than not that the taxable gain will be rolled over, being charged to tax only if and when the replacement assets are sold.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

2 TURNOVER

The company has derived none of its turnover from supplying geographical locations outside the UK.
