Notes to the abbreviated financial statements
for the year ended 30th September 2013

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and in accordance with applicable accounting standards, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2. Turnover

Turnover represents the total invoice value, excluding value added tax, of sales invoiced during the years or the fair value of services provided for amounts not invoiced. Turnover arising from the sale of goods is recognised when the significant risks and rewards of ownership have passed to the buyer.

Turnover arising from the provision of services is recognised as contract activity progresses and the right to consideration is earned. Unbilled turnover is included as amounts recoverable on contracts within debtors.

1.3. Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Plant and machinery	-	25% reducing balance
Office equipment	-	20% reducing balance
Motor vehicles	-	25% reducing balance

1.4. Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.

1.5. Stock

Stock is valued at the lower of cost and net realisable value. Cost includes all direct expenditure and appropriate proportion of fixed and variable overheads. Net realisable value is based on estimated selling prices less further costs expected to be incurred in bringing the stock to completion.

1.6. Long term contracts

Amounts recoverable on long term contracts, which are included in debtors, are stated at the net sales value of the work done after provisions for contingencies and anticipated future losses on contracts, less amounts received as progress payments on account. Excess progress payments are included in creditors as payments received on account.

..... continued

1.7. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
