Notes to the Abbreviated Accounts for the year ended 30th September 2015

1. **Accounting policies**

Accounting convention
The financial statements are prepared under the historical cost convention and in accordance with applicable accounting standards, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover
Turnover represents the total invoice value, excluding value added tax, of sales invoiced during the year or the fair value of services provided for amounts not invoiced. Turnover arising from the sale of goods is recognised when the significant risks and rewards of ownership have passed to the buyer.

Turnover arising from the provision of services is recognised as contract activity progresses and the right to consideration is earned. Unbilled turnover is included as amounts recoverable on contracts within debtors.

Tangible fixed assets
Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Plant and machinery - 25% reducing balance
Office equipment - 20% reducing balance
Motor vehicles - 25% reducing balance

Stocks
Stock is valued at the lower of cost and net realisable value. Cost includes all direct expenditure and appropriate proportion of fixed and variable overheads. Net realisable value is based on estimated selling prices less further costs expected to be incurred in bringing the stock to completion.

Deferred tax
Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Hire purchase and leasing commitments
Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.
