Notes to the abbreviated financial statements for the year ended 31 December 2012

1 Accounting policies

Going concern

The directors have considered a period of twelve months from the date on which these accounts have been signed and are satisfied that, in their opinion, the company will be able to continue to trade for at least that period of time, will be able to meet its ongoing financial liabilities and consequently that it is correct for it to be considered as a going concern.

Basis of accounting

The financial statements are prepared on the historical cost basis of accounting and have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The financial statements do not include a cash flow statement because the company, as a small reporting entity, is exempt from the requirements to prepare such a statement under the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the invoice value of rents by the company in respect of the year.

Investment properties

Investment properties are revalued annually and included in the balance sheet at their open market value.

In accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007) no depreciation is provided in respect of the depreciation of investment properties. This represents a departure from the Companies Act 2006 requirements in respect of the depreciation of fixed assets. The directors consider that this departure is necessary in order that the financial statements give a true and fair view of the state of affairs of the company.
