NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 08 JANUARY 2012

1. ACCOUNTING POLICIES

Basis of preparation of financial statements
The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover
Turnover comprises the invoiced value of goods and services supplied by the company, net of value added tax.

Tangible fixed assets and depreciation
Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of all fixed assets, less their estimated residual value, over their expected useful lives on the following bases:
Plant and equipment – 10% reducing balance basis

Deferred taxation
The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the director considers that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discountable basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.
