Notes to the Abbreviated Accounts

For the year ending 31 January 2011

1 **Accounting policies**

Basis of preparing the financial statements

The financial statements have been prepared on a going concern basis which assumes that the company will continue in operational existence for the foreseeable future. The company's current liabilities exceeded its current assets by £3,729 at 31 January 2011 (2010 : £8,793). The company is thus dependent on the continued financial support of its creditors. The director is confident of this continuing support and of the company's long term trading prospects and on this basis considers it appropriate to prepare the financial statements on the going concern basis. The financial statements do not include any adjustments that would result from the withdrawal of financial support.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of services, excluding value added tax.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Motor vehicles 25% on a reducing balance basis
