Notes to the Abbreviated Accounts for the period ended 31 March 2013

1 Accounting Policies

Basis of measurement and preparation of accounts

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

The turnover shown in the profit and loss account represents amounts invoiced during the year.

Valuation information and policy

Investment Properties

Investment properties are shown at their open market value. The surplus or deficit arising from the annual revaluation is transferred to the investment revaluation reserve unless a deficit, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

This is in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) which, unlike the Companies Act 2006, does not require depreciation of investment properties. Investment properties are held for their investment potential and not for use by the company and so their current value is of prime importance. The departure from the provisions of the Act is required in order to give a true and fair view.

Other accounting policies

Going Concern

The directors consider that, despite the loss of £339 (2012 - £413) and the balance sheet deficit of £4,841 (2012 - £4,502) the going concern basis is still applicable for the preparation of the financial statements due to the support of the directors who will not withdraw their loan until such time as funds permit.
