1 Accounting policies

The financial statements have been prepared under the historical cost convention

The following principal accounting policies have been applied

Going concern

The accounts have been prepared on a going concern basis due to the continued support of the director

Turnover

Turnover represents sales to external customers at invoiced amounts less value added tax or local taxes on sales

Depreciation

Depreciation is provided to write off the cost, less estimated residual values, of all tangible fixed assets evenly over their expected useful lives. It is calculated at the following rates

Office equipment	25% straight line
------------------	-------------------

Stocks

Stocks are valued at the lower of cost and net realisable value. Cost is based on the cost of purchase on a first in, first out basis. Net realisable value is based on estimated selling price less additional costs to completion and disposal.

Deferred taxation

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date except that the recognition of deferred tax assets is limited to the extent that the company anticipates making sufficient taxable profits in the future to absorb the reversal of the underlying timing differences.

Deferred tax balances are not discounted.
