**Notes to the Financial Statements
for the Year Ended 31 January 2019**

1. STATUTORY INFORMATION

Bruntsfield Property Investments Limited is a private company, limited by shares, registered in Scotland. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Turnover

Turnover represents net rental income, excluding value added tax.

Rent is recognised in accordance with the lease agreement. Where there are lease incentives such as rent free periods the rent relating to these incentives is accrued and subsequently released over the full period of the lease agreement. Property sales are recognised with reference to completion date.

Investment property

Investment properties are shown at their fair value. Any surplus or deficit arising from changes in fair value are recognised in the profit and loss account for the year. A reduction in value due to fluctuation in the property market conditions is not considered to be permanent.

Deferred taxation is provided on any fair value surplus at the rate expected to apply when the property is sold and at the year end is included in the fair value reserve with the relevant change in fair value.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2. ACCOUNTING POLICIES - continued

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Financial instruments

The company only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value.

All loans with related parties are repayable on demand.
