3. ACCOUNTING POLICIES

Basis of preparation

The financial statements have been prepared on the historical cost basis. The financial statements are prepared in sterling, which is the functional currency of the entity

Going concern

The Board of Directors confirms that, after making appropriate enquiries, and taking into account the current economic and financial uncertainty arising from the Covid 19 pandemic, that it has reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. The company's major creditor is its subsidiary undertaking. The subsidiary has agreed that the company can defer payment of the amount due to the subsidiary until the company is in a position to satisfy this debt. On this basis, the directors consider it appropriate to prepare the financial statements on the going concern basis. The financial statements do not include any adjustments that would result from a withdrawal of this deferral arrangement.

Consolidation

The company has taken advantage of the option not to prepare consolidated financial statements contained in Section 398 of the Companies Act 2006 on the basis that the company and its subsidiary undertakings comprise a small group.

Investments

Fixed asset investments are initially recorded at cost, and subsequently stated at cost less any accumulated impairment losses.

Financial instruments

A financial asset or a financial liability is recognised only when the entity becomes a party to the contractual provisions of the instrument. Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument. Debt instruments are subsequently measured at amortised cost.

8. EVENTS AFTER THE END OF THE REPORTING PERIOD

As at 30 April 2020 the UK was in its first lockdown due to the identification of a new coronavirus, Covid 19, that had spread around the world and had been declared, on 11 March 2020 by the World Health Organisation, as a pandemic. The identification of the virus as a new coronavirus, and its subsequent spread, is considered a non-adjusting subsequent event. In December 2020 another lockdown was also imposed due to the number of cases rising again within the UK. The directors have considered the impact of Covid 19 on the company and its subsidiary, and, as the subsidiary was able to continue to operate throughout both lockdowns, there has been no real impact on its trading or its profitability in the period since the year end. The subsidiary was able to continue trading as it supplies equipment to both the National Health Service and to food factories throughout the UK. Both of these services are essential services that were required throughout lockdown.

9. RELATED PARTY TRANSACTIONS

The company was under the control of its directors throughout the current and previous year. Included in Creditors above is the amount of £135,665 (2019 - £145,345) due to the company's subsidiary undertaking, JR Power Transmission Scotland Limited. The company was in receipt of dividends from its subsidiary, and the subsidiary made a number of payments on behalf of the company. During the year, the company paid dividends of £45,000 (2019 - £45,000) to K Malone and £45,000 (2019 - £45,000) to M Butler, both directors of the company. Included in Other creditors are amounts of £645 (2019 - £645) due to K Malone and £37,952 (2019 - £28,272) due to M Butler.
