Basis of preparation

The financial statements have been prepared on the historical cost basis. The financial statements are prepared in sterling, which is the functional currency of the entity

Going concern

The Board of Directors confirms that, after making appropriate enquiries, and taking into account the current economic and financial uncertainty arising from current economic conditions, that it has reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. The company's major creditor is its subsidiary undertaking. The subsidiary has agreed that the company can defer payment of the amount due to the subsidiary until the company is in the position to satisfy this debt. On this basis, the directors consider it appropriate to prepare the financial statements on the going concern basis. The financial statements do not include any adjustments that would result from a withdrawal of this deferral arrangement.

Consolidation

The company has taken advantage of the option not to prepare consolidated financial statements contained in Section 398 of the Companies Act 2006 on the basis that the company and its subsidiary undertakings comprise a small group.

Investments

Fixed asset investments are initially recorded at cost, and subsequently stated at cost less any accumulated impairment losses.

Financial instruments

A financial asset or a financial liability is recognised only when the entity becomes a party to the contractual provisions of the instrument. Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument. Debt instruments are subsequently measured at amortised cost.
