Tangible fixed assets
Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Deferred tax
Provision is made for deferred taxation in so far as a liability or asset arose as a result of transactions that had occurred by the balance sheet date and gave rise to an obligation to pay more tax in the future, or a right to pay less tax in the future with the following exception: Deferred tax assets are recognised only to the extent that the Directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
