Notes to the Abbreviated Accounts for the period ended 31 May 2014

1 Accounting Policies

Basis of measurement and preparation of accounts
The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy
Turnover represents the total invoice value, excluding value added tax, of sales made during the year.

Tangible assets depreciation policy
Depreciation is provided at rates calculated to write off the cost less residual value of each asset over it's expected useful life, as follows:
Fixures, fittings & equipment - 25% reducing balance
Motor vehicles - 25% reducing balance
Private registration - No depreciation

Other accounting policies
Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period.
