NOTES TO THE ABBREVIATED ACCOUNTS

AS AT 31 JULY 2011

1. ACCOUNTING POLICIES

1.1 Accounting Conventions

The financial statements are prepared under the historical cost convention.

1.2 Turnover

Turnover represents revenue recognised in the accounts. Revenue is recognised when the company fulfills its contractual obligations to customers by supplying goods and services and excludes value added tax. (Where services are performed gradually over time revenue is recognised as activity progresses by reference to the value of work performed).

1.3 Goodwill

Acquired goodwill is written off in equal annual instalments over its estimated useful economic life of 10 years.

1.4 Depreciation of Tangible Assets

Depreciation is provided on tangible assets at the following rates in order to write off the cost less residual value over the assets' expected useful life :

Motor Vehicles	- 25% per annum
Plant and Machinery	- 20% per annum
Office Equipment	- 20% per annum

1.5 Stocks

Stock and Work In Progress are valued at the lower of cost and net realisable value, after making allowance for obsolete and slow moving items. Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

1.6 Deferred Taxation

Deferred tax arises as a result of including items of income and expenditure in taxation computations in periods different from those in which they are included in the company's accounts. Deferred tax is provided in full on timing differences which result in an obligation to pay more (or a right to pay less) tax at a future date, at the tax rates that are expected to apply when the timing differences reverse based on current tax rates and laws.

Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the asset.

Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

AS AT 31 JULY 2011

1.7 Leases and Hire Purchase Contracts

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to the profit and loss account on a straight line basis over the lease term.

Assets held under finance lease and hire purchase contracts are capitalised and depreciated over their useful lives. The corresponding lease or hire purchase obligation is treated in the balance sheet as a liability. The interest element of rental obligations is charged to the profit and loss account over the period of the lease at a constant proportion of the outstanding balance of capital repayments.
