Notes to the abbreviated financial statements for the year ended 31 March 2014

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and comply with financial reporting standards of the Accounting Standards Board.

1.2. Turnover

Turnover is the total amount receivable by the company for amounts invoiced.

1.3. Going concern

During the year, the company made a loss and at the balance sheet date its liabilities exceed its assets by £8,458. The company meets its day to day working capital requirements from its bank overdraft and loans from directors. In common with such facilities, the bank overdraft is repayable on demand.

The financial statements have been prepared on a going concern basis, which assumes that the company will continue in operational existence for the forseeable future.

The validity of the assumption depends on the company's bankers continuing their support by providing adequate overdraft facilities. If the company was unable to continue in operational existence for the forseeable future, adjustments would have to be made to amend the balance sheet values to their recoverable amounts and to provide for further liabilities that might arise.

The director believes that the financial statements should be prepared on a going concern basis.
