NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 30 JUNE 2015

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

1.3 Turnover

Turnover consists of the sales value, excluding VAT, of work in the period under contracts to supply goods and services to third parties, together with related expenses. It includes the relevant proportion of contract value for performance up to the period end. Sales of goods and services are recognised when the company has provided the goods or service to the customer and collectability of the related receivable is reasonably assured.

1.4 Goodwill

Acquired goodwill is written off in equal annual instalments over its estimated useful economic life of five years.

1.5 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Plant and machinery	33% straight line
Office equipment	25% reducing balance and 33% straight line
Fixtures, fittings and equipment	25% reducing balance
Rapidart equipment	25% reducing balance

1.6 Investments

Current asset investments are stated at the market value.

1.7 Stock and work in progress

Work in progress is valued at the lower of cost and net realisable value.

1.8 Deferred taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all differences that have originated but not reversed at the balance sheet date. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and the law enacted or substantively enacted at the balance sheet date.
