2 **Investment Properties**

The company's investment properties are held for long term investment and in accordance with Financial Reporting Standard for Smaller Entities (effective January 2007) Investment properties are revalued annually and the aggregate surplus or deficit is transferred to a revaluation reserve and no depreciation is provided in respect of investment properties. Although the Companies Act would normally require the systematic annual depreciation of fixed assets, the directors believe that the policy of not providing depreciation is necessary in order for the accounts to give a true and fair view, since the current value of the investment properties,and changes to that current value, are of prime importance rather than a calculation of systematic annual depreciation.
