The financial statements have been prepared on the basis of the accounting policies set out in note 1 to the financial statements and comply with the FLTC Services Limited ("FLTCS") Memorandum and Articles of Association and applicable laws.

Business review and future developments

FLTCS is a wholly owned subsidiary of U.K. Fisheries Offshore Oil and Gas Legacy Trust Fund Limited and carries on trading activities. In the period of these financial statements FLTCS financed and provided information for fishermen through the FishSAFE Information Project (FSIP). FSIP gives fishermen detailed information about oil and gas related surface and sub sea hazards in waters above the UK Continental Shelf. FLTCS contributed significant funding for the FSIP and contracted with The Sea Fish Industry Authority for the provision of services to support the FSIP. In 2012 FLTCS worked with stakeholders to extend the areas covered by the FSIP, to enhance processes to capture and disseminate information provided to fishermen through the FSIP and to develop a proposal to capture and disseminate data relating to oil and gas structures in the waters of other northern European countries and Norway. This work continues in 2013.

FLTCS also continued to supply fishermen with new FishSAFE units. A FishSAFE Unit provides an audible and visual warning of oil and gas related surface and sub sea hazards in UK waters.

FLTCS also financed and promoted the FishSAFE web site www.fishsafe.eu. This innovative multi lingual site provides detailed information about oil and gas related assets in UK waters. During the year use of the site continued at levels which the directors consider to be satisfactory.

In 2013 FLTCS will continue to provide information to fishermen, complete a review of and finalise changes to processes to capture and disseminate information relating to oil and gas assets in UK waters, prepare a report on the possible extension of the FSIP, seek a grant towards funding the provision of information services to fishermen in 2014 and 2015, continue to supply FishSAFE units and maintain the FishSAFE website.

Notes

(forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Company's financial statements.

Basis of preparation

The financial statements have been prepared under the historical cost accounting rules and in accordance with applicable accounting standards.

The Company does not employ any staff and does not have any financial liabilities or commitments that are not covered by current assets at 31 December 2012. The nature of the company's activities are such that it has no ongoing costs. Expenditure, in respect of staff time or costs of sales, is only incurred when the Company has an agreement with a third party to provide services. The costs of providing these services is and will continue to be factored into an agreement with a third party so that income generated will match, or exceed, costs incurred. Accordingly, the Directors continue to adopt the going concern basis in preparing the financial statements.

Under Financial Reporting Standard 1, the Company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the Company in its own published consolidated financial statements.

As the Company is a wholly owned subsidiary of U.K. Fisheries Offshore Oil and Gas Legacy Trust Fund Limited, the Company has taken advantage of the exemption contained in FRS 8 and has therefore not disclosed transactions or balances with entities which form part of the group. The consolidated financial statements of U.K. Fisheries Offshore Oil and Gas Legacy Trust Fund Limited, within which this company is included, can be obtained from the address given in note 12.

Taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in the profit and loss account, except to the extent that it relates to items recognised directly in reserves. In this case, the tax is also recognised in reserves.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Notes (continued)

Deferred tax

In accordance with FRS 19 *Deferred tax*, full provision is made for tax assets and liabilities arising from timing differences between recognition of gains and losses in the financial statements and their recognition in the tax computation.

Deferred tax is measured at the average tax rates that are expected to apply in the years in which timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is measured on a non discounted basis.
