For the year ended 31 December 2012 the company was entitled to exemption from audit under Section 477 of the Companies Act 2006 relating to small companies and its members have not required the company to obtain an audit of its financial statements for the year in question in accordance with Section 476.

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts

These abbreviated financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

The abbreviated financial statements on pages 1 to 4 were approved by the board of directors and authorised for issue on 26/9/2013 and are signed on its behalf by:

J N Bray
Director

Match Point (London) Limited
UNAUDITED ACCOUNTING POLICIES

BASIS OF ACCOUNTING
The financial statements are prepared under the historical cost convention and the Financial Reporting Standard for Smaller Entities (effective April 2008).

GOING CONCERN
At the balance sheet date, the company had a deficiency of funds of £93,951. Although the company made a loss in 2012, it has traded profitably in 2013 and the directors believe it will continue to do so. The directors also believe that the company will be able to continue to meet liabilities as they fall due and are confident, that should it be required, other sources of finance will be available. The directors therefore consider that it is appropriate for the financial statements to be prepared on a going concern basis.

COMPLIANCE WITH ACCOUNTING STANDARDS
The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

TURNOVER
Turnover consists of the sales value (excluding VAT) of all work done in the period under contracts to supply goods and services to third parties. It includes the relevant proportion of contract values where work is partially performed in the period.

GOODWILL
Goodwill representing the excess of the purchase price compared with the fair value of net assets acquired is capitalised and written off evenly over 20 years as in the opinion of the directors this represents the period over which the goodwill is effective. Goodwill is reviewed for impairment at the end of the first full financial year following the acquisition and in other periods if events or changes in circumstances indicate that the carrying value may not be recoverable.

TANGIBLE FIXED ASSETS AND DEPRECIATION
Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Computer equipment	straight line method over 2 years
Fixtures, fittings & equipment	straight line method over 3 years

LEASING
Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

WORK IN PROGRESS
Work in progress is valued at the lower of cost and net realisable value.

RETIREMENT BENEFITS
The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the profit and loss account in the year they are payable.

DEFERRED TAXATION

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is recognised in the Statement of Total Recognised Gains and Losses on revaluations where at the balance sheet date there is an agreement to sell the asset and the gain or loss expected to arise on sale has been recognised.

Deferred tax is recognised in respect of the retained earnings of overseas subsidiaries and associates only to the extent that, at the balance sheet date, dividends have been accrued as receivable or a binding agreement to distribute past earnings in future has been entered into by the subsidiary or associate.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

FOREIGN CURRENCY TRANSLATION

Assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken to the profit and loss account.

Assets, liabilities, and results of overseas subsidiaries are translated at the rate ruling at the balance sheet date. Exchange differences arising are dealt with through reserves.
