Notes to the Abbreviated Accounts
For The Period 16 February 2010 to 28 February 2011

1. ACCOUNTING POLICIES

Basis of preparing the financial statements
In accordance with their responsibilities as directors, the directors have considered the appropriateness of the going concern basis for the preparation of the financial statements.

The company meets its day to day working capital requirements through loans from directors, who have confirmed that these monies will continue to be available as long as required by the company. On this basis, the directors consider it appropriate to prepare the financial statements on a going concern basis. The financial statements do not include any adjustments that might result from withdrawal of the loans.

The company's sales have increased substantially beyond the year end, and to this end the directors are working towards ensuring the company's long term profitability and remedying the balance sheet deficit at the year end date.

Accounting convention
The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover
Turnover represents net invoiced sales of goods and services, excluding value added tax.

Tangible fixed assets
Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.
