D.P. FARMS LTD.

Balance sheet statements

For the year ending 31 March 2021 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

The members have agreed to the preparation of abridged accounts for this accounting period in accordance with Section 444(2A).

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

The directors have chosen to not file a copy of the company's profit & loss account.

This report was approved by the board of directors on 23 December 2021
and signed on behalf of the board by:

Name: Mr Jeffrey Alan Mackie
Status: Director

The notes form part of these financial statements

D.P. FARMS LTD.

Notes to the Financial Statements

for the Period Ended 31 March 2021

1. Accounting policies

These financial statements have been prepared in accordance with the provisions of Section 1A (Small Entities) of Financial Reporting Standard 102

Turnover policy

Turnover represents amounts receivable for services provided net of VAT and the company's share of profits of the partnership of Messrs J & M Mackie.Revenue from the agricultural contracting and potato growing is recognised when the company has entitlement to the income in exchange for the provision of services.Revenue from the farming partnership is recognised on the accruals basis.

Tangible fixed assets and depreciation policy

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows: Plant and equipment-18% straight line.The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.Impairment of fixed assets- At each reporting year end date, the company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Valuation and information policy

Investments- The company's interest in the farming partnership of Messrs J & M Mackie is dealt with in the financial statements by the equity method of accounting. That is, the profit and loss account includes the company's share of the partnership profits (based on the partnership accounts) and the company's share of profit less any drawings are added to the cost of the investment in the Balance Sheet. Financial instruments- The company has elected to apply the provisions of Section 11 Basic Financial Instruments and Section 12 Other Financial Instruments Issues of FRS 102 to all of its financial instruments. Financial instruments are recognised in the company's balance sheet when the company becomes party to the contractual provisions of the instrument. Basic financial assets- Basic financial assets, which include debtors and cash and bank balances, are measured at transaction price including transaction costs.Classification of financial liabilities- Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Basic financial liabilities- Basic financial liabilities, including creditors, are recognised at transaction price.Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less.Equity instruments- Equity instruments issued by the company are recorded at the proceeds received, net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

Other accounting policies

Company information- D.P. Farms Ltd. is a private company limited by shares incorporated in Scotland. The registered office is Burnside, Little Brechin, Angus, DD9 6RQ and the registration number is SC374921. Accounting convention- These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006 as applicable to companies subject to the small companies regime. The disclosure requirements of section 1A of FRS 102 have been applied other than where additional disclosure is required to show true and fair view. The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £.The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below. Going concern- At the time of approving the financial statements, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus the directors continue to adopt the going concern basis of accounting in preparing the financial statements.TaxationThe tax expense represents the sum of the tax currently payable and deferred tax. Current tax- The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date. Deferred tax is calculated at the tax rates expected to apply in the year when the liability is settled or the asset is realised. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Leases- Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks & rewards of ownership to the lessees. All other leases are considered operating leases. Assets held under finance leases are recognised as assets at the lower of the assets fair value at the date of inception and the present value of the minimum lease payments. The related liability is included in the Balance sheet as a finance lease obligation. Lease payments are treated as consisting of capital and interest elements. The interest is charged to the profit and loss account so as to produce a constant rate of interest on the remaining balance of the liability.
