Notes to the Abbreviated Accounts for the Year Ended 31 August 2014

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The accounts have been prepared on a going concern basis not withstanding that liabilities of the company exceeded its assets at the year end by £20,627. The principal creditor of the company is a directors loan of £32,581 which the directors have indicated will not be repaid until the company is in a position to do so.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax, except in respect of service contracts where turnover is recognised when the company obtains the right to consideration.

Patents

Expenditure on Patents has been capitalised during the year and will be amortised over its useful life.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery	- 25% on cost
Computer equipment	- 33.33% on cost

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date, where transactions or events that result in an obligation to pay more or a right to pay less tax in the future have occurred by the balance sheet date with certain limited exceptions.

Deferred tax is calculated on an undiscounted basis at the tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Research and development

During the year the company undertook considerable work on a research & development project which was ongoing at the year end. This project has been partially funded by a SMART grant. All costs incurred to date along with the related grant income has been charged or credited to the profit & loss account.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.
