1. STATUTORY INFORMATION

iMetafilm Limited is a private company, limited by shares , registered in Scotland. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

2. ACCOUNTING POLICIES

Basis of preparing the financial statements
These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

The accounting policies applied under the company's previous accounting framework are not materially different to section 1A FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice applicable to Small Entities) and have not impacted on equity or profit and loss.

The accounts have also been prepared on a going concern basis. While the company had net assets of £232,648 as at 31 August 2017 there were net current liabilities at that date of £100,333. Short term cash flow remains an issue and, since the year end the directors have held discussions with investors, both new & old to put in place an additional £250,000 funding package. This will allow the company to continue trading and expand over the next 12 months. Ongoing discussions are taking place with these investors.

Significant judgements and estimates
Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Although these estimates are based on management's best knowledge of the amount, events or actions, actual results ultimately may differ from those estimates.

Turnover
Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

Research and development
Research and development are initially measured at cost. After initial recognition, research and development are measured at costs less any accumulated amortisiation and any accumulated impairment losses.

Research and development are being amortised evenly over their estimated useful life of four years.

Patents and licences
Patents are initially measured at cost less any accumulated amortisation and any accumulated impairment losses.

Patents are being amortised evenly over their estimated useful life of ten years.

Tangible fixed assets
Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery	- 33.33% on cost and 10% on cost
Fixtures and fittings	- 20% on cost
Computer equipment	- 33.33% on cost

2. ACCOUNTING POLICIES - continued

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Research and development

During the year the company undertook further work on a research & development project which had been ongoing at the start of the period. This project has now come to a conclusion and income has started to be generated from project. Costs incurred to date have now been capitalised and are being amortised on a straight line basis over a four year period.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

Debtors

Short term debtors are measured at transaction price, less any impairment.

Cash and cash equivalents

Cash is represented by cash and deposits with financial institutions repayable without penalty on notice of not more than twenty four hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was 5 .
