In accordance with Section 444 of the Companies Act 2006, the Income Statement has not been delivered.

The financial statements were approved by the Board of Directors and authorised for issue on 14 December 2021 and were signed on its behalf by:

P Smith - Director

The notes form part of these financial statements

1. STATUTORY INFORMATION

Reynold 123 Limited is a private company, limited by shares , registered in Scotland. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements
These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Going concern
The balance sheet at 29 February 2021 shows net liabilities of £983,209. However, there is no fixed date for redemption of the remainder of the preference shares and it is not the intention of the directors to redeem those shares until the company has sufficient liquidity. In addition, the loan notes which are repayable in October 2021 and, other loans from shareholders and associates, as mentioned at notes 11 and 15 have been classified as short term but it is not the intention of those parties to seek repayment with the next 12 month period.

Attention is also drawn to note 17 of the accounts concerning COVID 19. Management has determined that the actions that it has taken are sufficient to mitigate the uncertainty created by the pandemic. Accordingly, the directors have prepared the financial statements on a going concern basis.

Critical accounting judgements and key sources of estimation uncertainty
In preparing the financial statements the directors have made the following judgements

Taxation

Management establish provisions based on reasonable estimates, for possible consequences of taxation. The amount of the provision is based on various factors. Management's estimation is required to determine the amount of deferred tax that can be recognized based on likely timing and level of future taxable profits.

Tangible fixed assets

Tangible fixed assets are depreciated over their useful lives taking into account residual values, where appropriate. The actual lives of the assets and residual values are assessed annually and may vary depending on a number of factors. In re-assessing assets lives, factors such as technology innovation and maintenance programmes are taken into account. Residual value assessments consider issues such as future market conditions, the remaining life of the asset and projected disposal values.

Turnover
Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

Tangible fixed assets
Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.
Leasehold improvements - 10% on cost
Fixtures and fittings - 10% on cost

continued...

2. **ACCOUNTING POLICIES - continued**

Stocks
Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Financial instruments
Financial liabilities and equity instruments are classified according to the substance of the contractual arrangement entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

Where the contractual obligations of the financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classified as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability.

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.

Taxation
Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax
Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Hire purchase and leasing commitments
Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits
The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

continued...

2. **ACCOUNTING POLICIES - continued**

Cash and cash equivalents
Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments and are readily convertible to known amounts of cash with insignificant risk of change in value.

3. **EMPLOYEES AND DIRECTORS**

The average number of employees during the year was 89 (2020 - 148) .

.
The balance due to Endeavour Hospitality at the balance sheet date was £143,234 (2020 - £(33,088)).

continued...

17. POST BALANCE SHEET EVENTS

The COVID 19 pandemic developed rapidly in 2020 with a significant number of cases. Measures taken by the Scottish government to contain the virus included the total closure of the company's premises in March 2020. Although there were intermittent attempts to reopen the venue during 2020, it did not open on a continuous basis until May 2021 and trading has now returned to normal with performance levels above the 2019 comparatives.

At this stage, the impact on the business has been severe but with the financing that the company has in place coupled with the steps we have taken to monitor and contain the fixed overheads of the business we are confident that the company will recover from the fallout of this pandemic. We will continue to monitor and follow government policies and advice and will do our utmost to maintain the going concern position of the company but without jeopardizing the health of our people.

In view of the above, the bank covenant was not met in the year to 28 February 2021 and, as a result, the long term secured debt would become payable on demand. In accordance with Financial Reporting Standard 102, the long term debt has been treated as current.

18. ULTIMATE CONTROLLING PARTY

The company is under the control of the shareholders.

This document was delivered using electronic communications and authenticated in accordance with the registrar's rules relating to electronic form, authentication and manner of delivery under section 1072 of the Companies Act 2006.
