Notes to the abbreviated accounts for the year ended 30 September 2015

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Going concern

The company made a loss of £45,116 (2014 - £33,304), and had net current liabilities of £98,914 (2014 - £33,204) and net liabilities of £78,320 (2014 - £33,204). The company is dependant on the support of the parent entity and certain related parties. The director has satisfied themselves that this financial support will continue for the foreseeable future. The financial statements are therefore drawn up on the going concern basis and do not include any adjustment that would result if this support was withdrawn.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Plant and machinery	- 25% Reducing balance
---------------------	------------------------

1.4 Work in progress

Stocks and work in progress are valued at the lower of cost and net realisable value. Cost includes all costs incurred which relate directly to the project in question. Net realisable value is the greater of projected value in use and resale value, after taking into account remaining costs of completing and commissioning the project.

1.5 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.
