NOTES TO THE ABBREVIATED ACCOUNTS
for the Period 5 July 2013 to 31 July 2014

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover is stated gross. Turnover from the supply of services represents the value of services provided under contracts to the extent that there is a right to consideration and is recorded at the value of the consideration due. Where the contract has only been partially completed at the balance sheet date turnover represents the value of the service provided to date based on a proportion of the total contract value.

Deferred tax

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that they will be taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.

2. CALLED UP SHARE CAPITAL

Allotted, issued and fully paid:

Number:	Class:	Nominal value:	£
100	Ordinary	£1	<u>100</u>
