1 Accounting Policies

Basis of measurement and preparation of accounts

The abbreviated financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss. The abbreviated financial statements are prepared in sterling, which is the functional currency of the entity.

Turnover policy

The turnover in the profit and loss account represents the total invoiced value of sales in the year, exclusive of Value Added Tax.

Tangible assets depreciation policy

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Plant and machinery - 25% reducing balance

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of tangible assets, the depreciation is revised prospectively to reflect the new estimates.
