Notes to the Abbreviated Accounts
for the period 26th September 2014 to 30th September 2015

1. **Accounting policies**

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the total invoice value, excluding value added tax, of sales invoiced during the year, or the fair value of services provided for amounts not invoiced at the year end.

Turnover arising from the sale of goods is recognised when the significant risks and rewards of ownership have passed to the buyer.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery	- 15% on reducing balance
Fixtures and fittings	- 15% on reducing balance
Motor vehicles	- 25% on reducing balance
Office equipment	- 20% on cost

Stocks

Stock is valued at the lower of cost and net realisable value. Cost includes all direct expenditure and appropriate proportion of fixed and variable overheads. Net realisable value is based on estimated selling prices less further costs expected to be incurred in bringing the stock to completion.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.
