FLOATEL UK CONTRACTOR LIMITED

STRATEGIC REPORT

The directors present the Strategic Report for the year ended 31 December 2017, for Floatel UK Contractor Limited ("the Company").

Principal activities

The principal activities of the Company continued to be that of the provision of semi-submersible accommodation and construction support vessels to the oil and gas industry. At the date of this report, the directors are not aware of any likely change to the Company's activities in the forthcoming year.

Business review

Both the level of business and year end financial position were satisfactory and in line with expectations. Despite the continuously low in oil price and the impact this has had on the oil and gas industry, the directors do not expect a significant decrease in the level of activity throughout 2018. Management will continue to pursue a strategy to explore opportunities and secure new charter contracts in the UK.

The results for the year ended 31 December 2017 are shown in the statement of profit or loss and other comprehensive income on page 11. The profit before taxation was \$5,984,089 (2016: \$14,499,707).

Key performance indicators (KPIs)

The following KPIs are relevant to an understanding of the performance of the business and are used by management in reviewing the results and operations of the business:

(i) Profit before tax (PBT)

This is the key measure for management as it allows them to assess how effectively the Company is being managed. PBT as a percentage of revenue was 7.4 % during the year (2016: 11.3%).

(ii) Cashflow

The cash position of the Company is constantly reviewed to ensure there are adequate cash balances in place to service customer requirements. The Company had a net cash inflow from operating activities of \$13,284,998 during the year (2016: \$428,431 net cash outflow).

(iii) Rig utilisation

Management monitor rig utilisation which is the number of days rigs are on hire as a percentage of their total availability for hire, during any financial year. Rig utilisation was 100% over both financial years 2017 and 2016.

Principal risks and uncertainties

General

Floatel International Management System (FIMS) is an integrated management system based on three corner stones – Compliance, Control and Risk Management – in order to ensure the quality of performance, both business and operational. Policies and procedures are based on industry standards and aligned with the rules, regulations, codes and standards the Company is certified to. The system is managed at group level.

Environmental issues

The Environmental Management System (EMS), integrated in FIMS, which is also managed at group level, contains procedures for identifying and controlling environmental impacts and risks, where the potential of oil spill is the main risk. The EMS also includes emergency response procedures and plans for responding to environmental accidents in order to minimise any impact these might have.

FLOATTEL UK CONTRACTOR LIMITED

STRATEGIC REPORT (CONTINUED)

Principal risks and uncertainties (continued)

Operational risk

The Company's offshore operations involve a variety of risks, such as injury to personnel, damage to equipment, accidental discharges/emissions to the natural environment and business interruption. The Company has entered into a service agreement with Floatel International AB and Floatel UK Limited for receiving certain project management services including, inter alia, risk management. The operational risks are governed by the group's internal policies and procedures including a risk management plan with relevant procedures specific for its operational activities. The policies and procedures are based on international recognised standards, describing the main activities, organisation, responsibilities and functional requirements.

Additional risks

For additional risks such as credit risk, price risk, cash flow risk and liquidity risk please refer to the Directors' Report.

On behalf of the board:

B T Hjelmstierna
Director

27 July 2018
Date

FLOATTEL UK CONTRACTOR LIMITED

DIRECTORS' REPORT

The directors present the Directors' Report for the year ended 31 December 2017.

Dividends

No dividends were paid during the year and no final ordinary dividends have been recommended by the directors (2016: \$nil).

Future developments

The Company intends to continue operating in the area of the provision of accommodation and construction support vessels to the oil and gas industry, with a focus on growing the business and increasing profitability.

Directors

The following directors have held office since 1 January 2017 and up to the date of this report, unless otherwise stated:

B T Hjelmstierna

H J MacLeod

K O Wahl

F Arnoldsson

(resigned 28 June 2017)

(appointed 28 June 2017)

Financial risk management objectives and policies

The Company's activities expose it to a number of financial risks including: credit risk, liquidity risk and market risk. The Company does not use derivatives to manage financial risk or for speculative purposes. Further information on the Company's financial risk management is provided within note 16.

Going concern

The Company has returned a loss for the year ended 31 December 2017. The directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing these financial statements.

Statement of directors' responsibilities

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable IFRS as adopted by the European Union have been followed for the company financial statements, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

FLOATTEL UK CONTRACTOR LIMITED

DIRECTORS' REPORT (CONTINUED)

Statement of disclosure to auditors

So far as the directors are aware, there is no relevant audit information of which the Company's auditors are unaware. Additionally, the directors have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the Company's auditors are aware of that information.

Independent auditors

During the year KPMG LLP resigned as auditors and PricewaterhouseCoopers LLP were appointed. PricewaterhouseCoopers LLP have expressed their willingness to continue in office as auditors and appropriate arrangements are being made for them to be deemed reappointed.

On behalf of the board:

B T Hjelmstierna
Director

27 July 2018
Date

Independent Auditors' Report to the Members of Floatel UK Contractor Limited

Report on the audit of the financial statements

Opinion

In our opinion, Floatel UK Contractor Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2017 and of its profit and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report, which comprise: the statement of financial position as at 31 December 2017; the statement of profit or loss and other comprehensive income, the statement of cash flows, the statement of changes in equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you when:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

Independent Auditors' Report to the Members of Floatel UK Contractor Limited (continued)

Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 31 December 2017 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities set out on page 6, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Independent Auditors' Report to the Members of Floatel UK Contractor Limited (continued)

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

FLOATEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017

1. Reporting entity

Floatel UK Contractor Limited ("the Company") is a company incorporated and domiciled within the United Kingdom, Scotland, as a private company with liability limited by shares. The address of the Company's registered office is Citypoint House, 11 Chapel Street, Aberdeen, AB10 1SQ. Its principal activity continues to be that of the provision of offshore accommodation and construction support vessels to the oil and gas industry. Accommodation and construction support vessels are provided through the Company's sister companies within the Floatel International Limited group ("the Group").

2. Summary of significant accounting policies

2.1. Basis of preparation of the financial statements

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and IFRS Interpretations Committee ("IFRS IC") interpretations as adopted by the European Union and with the Companies Act 2006 applicable to companies reporting under IFRS. They were authorised for issue by the Company's board of directors on the date set out on page 12 and the Statement of Financial Position was signed on the board's behalf by Mr B T Hjelmstierna.

The financial statements have been prepared on a historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The financial statements are presented in accordance with IAS 1 *Presentation of Financial Statements*. The Company has elected to present the Statement of Profit or Loss and Other Comprehensive Income in a single statement. The accounting policies that follow have been consistently applied to all years presented.

These financial statements for the year ended 31 December 2017 are the first financial statements of Floatel UK Contractor Limited prepared in accordance with IFRS. The date of transition to IFRS was 1 January 2016. The reported financial position and financial performance for the previous year are not affected by the transition to IFRS.

2.2. Going concern

The financial statements have been prepared on a going concern basis which the directors believe to be appropriate. The Company has existing contracts with reputable customers and is expected to be profit making and cash generative for the coming period.

2.3. Judgements and key sources of estimation uncertainty

In preparing these financial statements, management may consider judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

i) Significant management judgement

Functional currency

The functional currency of the Company is the currency of the primary economic environment in which it operates. In determining the functional currency, the directors determined the currency in which primarily influences sales price and the currency in which the majority of the existing costs are denominated in.

ii) Significant estimation uncertainty

The directors have not noted any significant estimation uncertainties which have a significant effect on amounts recognised in the financial statements.

FLOATEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017 (CONTINUED)

2. Summary of significant accounting policies (continued)

2.4. Foreign currency translation

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The financial statements are presented in US Dollars (\$) which is the Company's functional and presentational currency, and all values are rounded to the nearest dollar except where otherwise indicated.

Transactions and balances

Transactions in foreign currencies are translated into the respective functional currency of the Company at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured at historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognised in profit or loss.

2.5. Financial instruments

i) Financial assets

Initial recognition and measurement

Financial assets within the scope of IAS 39 ("Financial Instruments: Recognition and Measurement") are classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, available-for-sale financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Company determines the classification of its financial assets at initial recognition.

All financial assets are recognised initially at fair value plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

The Company's financial assets include cash and short-term deposits and trade and other receivables. The Company has no financial assets at fair value through profit or loss, held-to-maturity investments, available-for-sale financial assets or derivatives.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

FLOATTEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017 (CONTINUED)

2. Summary of significant accounting policies (continued)

2.5 Financial instruments (continued)

i) Financial assets (continued)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are initially recognised at fair value and subsequently measured at amortised cost using the effective interest (EIR) method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance revenue in the income statement. Losses arising from impairment are recognised in the statement of profit or loss.

ii) Financial liabilities

Initial recognition and measurement

Financial liabilities within the scope of IAS 39 are classified as financial liabilities at fair value through profit or loss, other financial liabilities measured at amortised cost using the EIR method, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Company determines the classification of its financial liabilities at initial recognition. All financial liabilities are recognised initially at fair value and in the case of loans and borrowings, plus directly attributable transaction costs. The Company has no financial liabilities at fair value through profit or loss or derivatives.

Subsequent measurement

The measurement of financial liabilities depends on their classification as follows:

Other financial liabilities

Other financial liabilities are recognised when the Company becomes party to the related contracts and are measured initially at the fair value of consideration received less directly attributable transaction costs.

After initial recognition, other financial liabilities are subsequently measured at amortised cost using the effective interest method.

Gains and losses arising on the repurchase, settlement or otherwise cancellation of liabilities are recognised respectively in finance revenue and finance cost.

iii) Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the Company.

iv) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

FLOATEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017 (CONTINUED)

2. Summary of significant accounting policies (continued)

2.5 Financial instruments (continued)

v) Fair value measurement

'Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Company has access at that date. The fair value of a liability reflects its non-performance risk.

When one is available, the Company measures the fair value of an instrument using the quoted price in an active market for that instrument. A market is regarded as active if transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

If there is no quoted price in an active market, then the Company uses valuation techniques that maximise the use of relevant observable inputs and minimise the use of unobservable inputs. The chosen valuation technique incorporates all of the factors that market participants would take into account in pricing a transaction.

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received. If the Company determines that the fair value on initial recognition differs from the transaction price and the fair value is evidenced neither by a quoted price in an active market for an identical asset or liability nor based on a valuation technique for which any unobservable inputs are judged to be insignificant in relation to the measurement, then the financial instrument is initially measured at fair value, adjusted to defer the difference between the fair value on initial recognition and the transaction price. Subsequently, that difference is recognised in profit or loss on an appropriate basis over the life of the instrument but no later than when the valuation is wholly supported by observable market data or the transaction is closed out.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- **Level 1:** Quoted (unadjusted) prices in active markets for identical assets or liabilities;
- **Level 2:** Other techniques for which all inputs which has a significant effect on the recorded fair value are observable, either directly or indirectly.
- **Level 3:** Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

2.6. Cash and cash equivalents

Cash and short-term deposits in the balance sheet comprise cash at banks and in hand and short-term deposits with an original maturity of three months or less. Bank overdrafts are shown within borrowings in current liabilities. During the current year, any excess cash was pooled with the Group and any funding requirements were met through pooled cash funds within the Group.

2.7. Impairment - Non-derivative financial assets

A financial asset not classified as fair value through profit or loss, including an interest in an equity-accounted investee, is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset, and that loss event(s) had an impact on the estimated future cash flows of that asset that can be estimated reliably.

2. Summary of significant accounting policies (continued)

2.7. Impairment - Non-derivative financial assets (continued)

Objective evidence that financial assets are impaired includes default or delinquency by a debtor, restructuring of an amount due to the Company on terms that the Company would not consider otherwise, indications that a debtor will enter bankruptcy, adverse changes in the payment status of borrowers or issuers, economic conditions that correlate with defaults or the disappearance of an active market for a security.

2.8. Revenue recognition

The directors are remunerated through other subsidiary companies within the Floatel International Limited group and as such no directors' remuneration is shown within the Company. The emoluments of the directors are recharged to the company as part of a management charge. This management charge includes a recharge of administration costs borne by other subsidiary companies within the Floatel International Limited group on behalf of the company and it is not possible to identify separately the amount of the directors' emoluments.

2.9. Finance income and finance costs

Finance income and finance costs comprise interest income, interest expense, dividend income, net gain or loss on financial assets at fair value through profit or loss (FVTPL), foreign currency gain or loss on financial assets and liabilities and impairment losses recognised on financial assets (other than trade receivables).

Interest income or expense is recognised using the effective interest method. Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established. Interest expense directly attributable to the acquisition, construction or production of a qualifying asset is capitalised as part of that asset cost.

2.10. Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

Leases of property, plant and equipment, where the Company has substantially all the risks and rewards of ownership, are classified as finance leases. Finance leases are capitalised at the lease's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments.

Each lease payment is allocated between the liability and finance charges. The corresponding rental obligations, net of finance charges, are included in other long-term payables. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases is depreciated over the shorter of the useful life of the asset and the lease term.

FLOATEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017 (CONTINUED)

2. Summary of significant accounting policies (continued)

2.11. Income tax

Income tax expense comprises current and deferred tax. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the period and any adjustment to the tax payable or receivable in respect of previous periods. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends. Current tax assets and liabilities are offset only if certain criteria are met.

ii) Deferred tax

Deferred income tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss, temporary differences related to investments in subsidiaries and joint arrangements to the extent that the group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future, and taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then the future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for individual subsidiaries of the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

FLOATTEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017 (CONTINUED)

3. New standards issued but not yet effective

A number of new standards and amendments to standards are effective for annual periods after 1 January 2018 and earlier application is permitted; however, the Company has not early adopted the new or amended standards in preparing these financial statements.

		Effective for accounting periods on or after
IFRS 9	Financial Instruments – will ultimately replace IAS 39 Financial Instruments: Recognition and Measurement in its entirety. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, including a new expected credit loss model for calculating impairment on financial assets and the new general hedge accounting requirements. It also carries forward the guidance on recognition and de-recognition of financial instruments from IAS 39. Early adoption is permitted.	1 January 2018
IFRS 15	Revenue from Contracts with Customers – is intended to clarify the principles of revenue recognition and establish a single framework for revenue recognition. This supersedes IAS 18 Revenue, IAS 11 Construction Contracts and IFRIC 13 Customer Loyalty Programmes. The core principle is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity is expected to be entitled to, in exchange for those goods or services. Early adoption is permitted.	1 January 2018
IFRS 16	Leases – will replace IAS 17 Leases, IFRIC 14 Determining Whether an Arrangement Contains a Lease, SIC 15 Operating Leases – Incentives and SIC 27 Evaluating the Substance of Transactions involving the Legal Form of a Lease. The new standard cancels a currently used dual lessee accounting model. This model requires classification of the lease as an on-balance sheet finance lease and off-balance sheet operating lease. It will be replaced by a single model, which implies that the lease is recognised on the balance sheet and is similar to the current accounting treatment for finance leases. Early adoption is permitted provided that IFRS 15 Revenue from Contracts with Customers is also applied.	1 January 2019

For IFRS 9 and IFRS 15, the directors have assessed the potential impact the financial statements and believe neither standards will have a material effect on the Company. As regards IFRS 16, the directors are assessing its potential impact going forward.

4. Revenue

The Company operates one principal area of activity which is that of providing offshore accommodation and construction support vessels to the oil and gas industry. All revenue is categorised as 'rendering of services'.

An analysis of the Company's revenue by geographical market is given below:

	2017 \$	2016 \$
United Kingdom and Europe	<u>81,124,917</u>	<u>128,808,299</u>

Net finance (costs)/income recognised in profit or loss	(1,638)	233

FLOATTEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017 (CONTINUED)

8. Staff costs

The Company does not have any employees other than directors.

The directors are remunerated through other subsidiary companies within the Floatel International Limited group and as such, no directors' remuneration is shown within the Company. The emoluments of the directors are recharged to the Company as part of a management charge. This management charge includes a recharge of administration costs borne by other subsidiary companies within the Floatel International Limited group on behalf of the Company and it is not possible to identify separately the amount of the directors' emoluments.

No pension contributions were prepaid or outstanding at the year end (2016: \$nil).

9. Taxation

Tax recognised in profit or loss

	2017 \$	2016 \$
Current income tax		
UK corporation tax	5,827,138	10,667,611
Adjustments in respect of prior periods	59,242	(69,879)
Total tax charge	5,886,380	10,597,732

No tax was either charged or credited to other comprehensive income. No deferred tax was required to be provided for.

Reconciliation of the total tax charge

The tax expense in the statement of profit or loss for the year is higher than (2016: higher than) the standard rate of corporation tax in the UK of 19.25%. The differences are reconciled below:

	2017 \$	2016 \$
Profit before taxation	5,984,089	14,499,707
Tax calculated at UK standard rate of corporation tax of 19.25% (2016: 20%):	1,151,937	2,899,941
Non-deductible expenses	4,675,201	7,897,530
Income not taxable	-	(129,860)
Adjustments in respect of prior periods	59,242	(69,879)
Total tax charge	5,886,380	10,597,732

The Company's current tax liability as 31 December 2017 is \$3,604,257 (2016: \$1,113,589)

Factors that may affect future tax charge

The UK corporation tax rate was decreased from 20% to 19% from 1 April 2017.

Further reductions to the UK corporation tax rates were substantively enacted as part of the Finance No. 2 Bill 2015 on 26 October 2015 with the main rate of corporation tax reducing to 18% from 1 April 2020. In the Budget 2016, it was announced that the UK corporation tax rate would actually reduce further, to 17% from 1 April 2020. This was substantively enacted in September 2016.

FLOATEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017(CONTINUED)

10. Trade and other receivables

	2017 \$	2016 \$
Trade receivables	6,549,587	16,247,980
Amounts due from group undertakings	946,174	86,672
Other receivables	-	1,144

FLOATEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017 (CONTINUED)

16. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk
- liquidity risk
- market risk

This note presents information about the Company's exposure to each of the above risks and the Company's objectives policies and procedures for measuring and managing risk.

i) Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the risk management framework. The board of directors utilise senior management to develop and monitor the it's risk management policies and regular reports are made to the board on activity and progress.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The board of directors also oversee how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

ii) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

The carrying amount of financial assets represents the maximum credit exposure.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which the customers operate.

The counterparty risk is in general limited in respect of customers, since these are typically major oil companies and national oil companies with high credit ratings and strong balance sheets. As of 31 December 2017, there is no objective evidence that trade receivables are impaired and no impairment loss has been recognised in the income statement.

At 31 December, the ageing of trade and other receivables that were not impaired was as follows:

	2017 \$'000	2016 \$'000
Neither past due nor impaired	14,404	24,857
Past due 1-30 days	-	-
Past due 31-90 days	-	-
Past due 91-120 days	-	-
	<u>14,404</u>	<u>24,857</u>

FLOATTEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017 (CONTINUED)

16. Financial risk management (continued)

ii) Credit risk (continued)

Cash and cash equivalents

The Company held cash and cash equivalents of \$nil at 31 December 2017 (31 December 2016: \$1,287,273), which represents its maximum credit exposure on these assets. The cash and cash equivalents are held with bank and financial institution counterparties, which are rated AA- to AA+, based on rating agency ratings.

iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The following are the remaining contractual maturities at the end of the reporting period of financial liabilities. The amounts are gross and undiscounted, and include contractual interest payments and exclude the impact of netting agreements:

31 December 2017		Contractual cash flows					
	Carrying amount \$'000	Total \$'000	2 months or less \$'000	2-12 months \$'000	1-2 years \$'000	2-5 years \$'000	More than 5 years \$'000
Non- derivative financial liabilities							
Trade payables	909	909	909	-	-	-	-
Other payables	6,531	6,531	6,531	-	-	-	-
Accrued expenses	1,606	1,606	-	1,606	-	-	-
	<u>9,046</u>	<u>9,046</u>	<u>7,440</u>	<u>1,606</u>	<u>-</u>	<u>-</u>	<u>-</u>

FLOATEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017 (CONTINUED)

16. Financial risk management (continued)

iii) Liquidity risk (continued)

31 December 2016		Contractual cash flows					
	Carrying amount \$'000	Total \$'000	2 months or less \$'000	2-12 months \$'000	1-2 years \$'000	2-5 years \$'000	More than 5 years \$'000
Non-derivative financial liabilities							
Trade payables	1,163	1,163	1,163	-	-	-	-
Other payables	1,343	1,343	1,343	-	-	-	-
Accrued expenses	1,858	1,858	-	1,858	-	-	-
	<u>4,364</u>	<u>4,364</u>	<u>2,506</u>	<u>1,858</u>	<u>-</u>	<u>-</u>	<u>-</u>

The gross outflows disclosed above represent the contractual undiscounted cash flows relating to derivative financial liabilities held for risk management purposes and which are not usually closed before the contractual maturity.

iv) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Company is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated and the respective functional currencies of the individual entities within the Company. The Company's exposure to currencies other than USD is mainly associated with operating and capital expenditures, tax liabilities and cash or cash equivalents, as revenues generally are received in USD. Depending on the country of operations and the nationality of the crew, the operating and tax expenditures are mainly denominated in USD, NOK, EUR, SEK and GBP.

The board of directors do not see currency risk as a significant part of the Company's market risk and does not use derivatives to hedge its currency risk. Instead, the Company seeks to naturally hedge foreign currency payments and receipts of the same denomination.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Company's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

FLOATEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017 (CONTINUED)

16. Financial risk management (continued)

iv) Market risk (continued)

The summary quantitative data about the Company's exposure to currency risk as reported to the management of the Company is as follows:

31 December 2017

	USD	NOK	EUR	SEK	GBP
\$'000					
Trade receivables	6,550	-	-	-	-
Trade payables	(9)	(63)	(5)	(77)	(755)
Net statement of financial position exposure	6,541	(63)	(5)	(77)	(755)

31 December 2016

	USD	NOK	EUR	SEK	GBP	DKK
\$'000						
Trade receivables	16,248	-	-	-	-	-
Trade payables	(39)	(159)	(99)	(90)	(753)	(23)
Net statement of financial position exposure	16,209	(159)	(99)	(90)	(753)	(23)

The following significant exchange rates have been applied:

	Year-end spot rate 2017
NOK	8.2236
EUR	0.8358
SEK	8.2322
GBP	0.7413

Exchange rates are updated weekly.

Interest rate risk

The Company is not exposed to significant interest rate risk due to having no external borrowings and inter-company balances are interest free.

FLOATEL UK CONTRACTOR LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2017 (CONTINUED)

17. Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management continuously monitors the cash position and capital structure in order to meet current funding requirements and to fund future growth opportunities. As the Company matures, its capital structure will be optimised to meet evolving conditions including liquidity, investment opportunities and financing capabilities.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders.

18. Related parties

i) Key management personnel compensation

The group consider key management personnel to be the directors and certain senior management. There is no compensation paid to them through this Company.

ii) Other related party transactions

The company has entered into the following transactions with related parties:

	Transaction values for the year ended 31 December 2017 \$'000	Balance outstanding at 31 December 2017 \$'000
Fellow Group undertakings – transactions and balances		
Revenues	25	-
Cost of sales	(47,675)	-

Trade payables – Group	-	(1,299)
Accrued expenses – Group	-	(44)

All outstanding balances with these related parties are priced on an arm's length basis and are to be settled in cash within 30 days of the reporting date. None of the balances is secured. No expense has been recognised in the current year for bad or doubtful debts in respect of amounts owed by related parties. No guarantees have been given or received other than as per note 20.

19. Parent and ultimate controlling party

The immediate parent and ultimate controlling party of the Company is Floatel International Limited, a company registered in Bermuda.

20. Guarantees and commitments

At 31 December 2017 the Company's assets and shares have been pledged to a consortium of banks headed by ABN AMRO Netherlands in relation to \$1.2b financing provided to a fellow group entity, Floatel International Ltd Bermuda.
