The financial statements have been prepared under the historical cost convention.

Turnover

Rendering of services
Turnover from the rendering of services, namely the provision of web designing, is recognised by reference to the stage of completion of the service at the statement of financial position date.

Intangible assets

Financial instruments
Basic financial instruments are recognised as follows:

(i) Debtors
Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method less any impairment.

(ii) Cash and cash equivalents
Cash and cash equivalents include cash at bank and in hand.

Cash and cash equivalents are shown net of bank overdrafts, which are included as current borrowings in liabilities on the statement of financial position.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the statement of financial position date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Going concern

At the statement of financial position date, the company's liabilities exceeded its total assets by £577 In order to meet its day to day working capital requirements, the company requires the continuing support of its director.

The financial statements have been prepared on a going concern basis which assumes that the company will continue in operational existence for the foreseeable future.

If the company was unable to continue in operational existence for the foreseeable future, adjustments would have to be made to reduce the statement of financial position values of assets to their recoverable amounts, to provide for further liabilities that might arise.

The director believes that it is appropriate for the financial statements to be prepared on a going concern basis.

Provision for liabilities

The company recognises a provision for annual leave accrued by employees as a result of services rendered in the current period, and which employees are entitled to carry forward and use within the next 12 months. The provision is measured at the salary cost payable for the period of absence.
