NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 SEPTEMBER 2017

1. STATUTORY INFORMATION

Cathcart Properties Glasgow Limited is a private company, limited by shares, registered in Scotland. The company's registered office is First Floor, Regent Court, 70 West Regent Street, Glasgow, G2 2QZ.

The financial statements are presented in Sterling (£).

2. ACCOUNTING POLICIES

Basis of preparing the financial statements
These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

There were no material departures from that standard.

Turnover
Turnover represents invoiced sales of property. The company's policy is to recognise a sale when substantively all the risks and rewards in connection with the services have been passed to the buyer.

Stock
Work in progress is valued at the lower of cost and estimated selling price less cost to sell. Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

Financial instruments
The company only has financial assets and liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are recognised at amortised cost.

Taxation
Taxation represents the sum of tax currently payable and deferred tax. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

With the exception of changes arising on the initial recognition of a business combination, the tax expense is presented either in profit or loss, other comprehensive income or statement of changes in equity depending on the transaction that resulted in the tax expense.

Deferred tax liabilities are presented within provisions for liabilities and deferred tax assets within debtors.

3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was NIL (2016 - NIL).
