In accordance with Section 444 of the Companies Act 2006, the Income Statement has not been delivered.

The financial statements were approved by the Board of Directors on 21 September 2017 and were signed on its behalf by:

A handwritten signature in black ink, consisting of a stylized 'J' and 'P' followed by a surname, written over a horizontal line.

J P Stephenson - Director

NOTES TO THE FINANCIAL STATEMENTS
FOR THE PERIOD 4 AUGUST 2016 TO 31 AUGUST 2017

1. STATUTORY INFORMATION

Thorley Stephenson Limited is a private company, limited by shares, registered in Scotland. The company's registered number and registered office address can be found on the Company Information page.

The company conducts its business from 51 South Bridge, Edinburgh, EH1 1LL and 149 Cowgate, Edinburgh, EH1 1JT.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

The financial statements are presented in pounds sterling (£) which is the functional currency of the company and rounded to the nearest £.

Turnover

Turnover is measured at the fair value of the consideration received or receivable net of VAT and trade discounts. The policies adopted for the recognition of turnover are as follows:

Rendering of services

When the outcome of a transaction can be estimated reliably, turnover from legal services is recognised by reference to stage of completion at the balance sheet date. Stage of completion is measured by reference to progress of case and costs incurred at the reporting date.

Goodwill

Goodwill arising on incorporation has been capitalised, classified as an asset on the balance sheet and amortised on a straight line basis over its useful life. The period chosen for writing off goodwill is 5 years.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings - 20% on reducing balance

Motor Vehicles - 25% on reducing balance

Computer Equipment - 33.33% on cost

Tangible fixed assets are stated at cost or valuation less accumulated depreciation and accumulated impairment losses. Cost includes costs directly attributable to making the asset capable of operating as intended.

NOTES TO THE FINANCIAL STATEMENTS - continued
FOR THE PERIOD 4 AUGUST 2016 TO 31 AUGUST 2017

2. ACCOUNTING POLICIES - continued

Taxation

Taxation for the period comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax represents the future tax consequences of transactions and events recognised in the financial statements of current and previous periods. It is recognised in respect of all timing differences, with certain exceptions. Timing differences are differences between taxable profits and total comprehensive income as stated in the financial statements that arise from the inclusion of income and expense in tax assessments in periods different from those in which they are recognised in the financial statements. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date that are expected to apply to the reversal of timing differences.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

Employee benefits

When employees have rendered service to the company, short-term employee benefits to which the employees are entitled are recognised at the undiscounted amount expected to be paid in exchange for that service.

The company operates a defined contribution plan for the benefit of its employees. Contributions are expensed as they become payable.

Debtors and creditors receivable/payable within one year

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in the profit and loss account in other administrative expenses.

3. EMPLOYEES AND DIRECTORS

The average number of employees during the period was 27.
