The company was entitled to exemption from audit for this reporting period under section 477 of the Companies Act 2006 relating to small companies.

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.

The Director acknowledges their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

The directors have chosen to not file a copy of the company's profit and loss account under section 444 (5A) Companies Act 2006.

The financial statements were approved and authorised for issue by the Director on 16 May 2025, and are signed on its behalf by:

JAAP, Douglas William

Director

Registered Company No. SC570521

JAAPLAW LIMITED

Notes to the Financial Statements for the year ended 31 August 2024

1. Accounting policies

Statutory information

The company is a private company limited by shares and registered in Scotland. The company's registered number and registered office address can be found on the Company Information page.

Statement of compliance

The financial statements have been prepared in accordance with the Companies Act 2006 and FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland including Section 1A Small Entities.

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with FRS 102, the financial reporting standard applicable in the UK and Republic of Ireland (as applied to small entities by section 1A of the standard).

Revenue from rendering of services

The turnover shown in the profit and loss account represents the value of services rendered during the year, exclusive of Value Added Tax. Revenue is recognised in line with performance, to the extent that a right to consideration arises.

Operating leases

Where, substantially, all the risks and rewards of ownership of the asset do not transfer from the lessor to the company, the lease is treated as an operating lease. Rentals payable under operating leases are charged to the profit and loss account on a straight-line basis over the period of the lease.

Employee benefits

Short-term employee benefits are measured at the undiscounted amount expected to be paid in exchange for the employee's services to the company. Where employees have accrued short-term benefits which the entity has not paid by the balance sheet date, an accrual is recognised within creditors: amounts falling due within one year together with an associated expense in profit or loss. The liabilities are classified as current obligations in the statement of financial position because they are expected to be settled wholly within twelve months after the end of the period.

Defined contribution pension plan

The company operates a defined contribution pension plan for the benefit of its employees. Contributions are recognised as expenses as they become payable. Differences between contributions payable in the year and those actually paid are recognised as either prepayments or accruals in the balance sheet. The assets of the defined contribution pension scheme are held separately from those of the company in an independently administered fund.

Current taxation

Current tax is recognised in profit or loss, except for taxes related to revaluations of land and buildings which are recognised in other comprehensive income.

Current tax represents the amount of tax payable (receivable) in respect of taxable profit (loss) for the current, or past, reporting periods. Current tax is measured at the amount expected to be paid (recovered) using the tax rates and laws which have been enacted, or substantively enacted, by the balance sheet date. Where payments to HM Revenue and Customs exceed liabilities owed, an asset is recognised to the extent of the amount of tax recoverable.

Deferred tax

Deferred tax is recognised in respect of all timing differences between the recognition of income and expenses in the financial statements and their inclusion in tax assessments. Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference, except for revalued land and investment property where the tax rate that applies to the sale of the asset is used. Current and deferred tax assets and liabilities are not discounted.

Tangible fixed assets and depreciation

All fixed assets are initially recorded at cost. Property, plant and equipment is used in the company's principal activity for the production and supply of goods or for administrative purposes and is stated in the balance sheet under the historic cost model. This model requires the assets to be stated at cost less amounts in respect of depreciation and less any accumulated impairment losses. Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value (which is the expected amount that would currently be obtained from disposal of an asset, after deducting the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life), over the useful economic life of the respective asset as follows:

	Straight line (years)
Fixtures and fittings	5

Financial instruments

A financial asset or a financial liability is recognised only when the entity becomes a party to the contractual provisions of the instrument. Basic financial instruments are initially recognised at transaction price and measured at amortised cost using the effective interest method. Where investments in non-derivative financial instruments are publicly traded, or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value through profit and loss. All other investments are subsequently measured at cost less impairment.

Financial assets which are measured at cost or amortised cost are reviewed for objective evidence of impairment at each balance sheet date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately. All equity instruments, regardless of significance, and other financial assets that are individually significant, are assessed individually for impairment.

2. Average number of employees

	2024	2023
Average number of employees during the year	1	1

3. Tangible fixed assets

	Fixtures & fittings	Total
	£	£
Cost or valuation		
At 01 September 23	7,549	7,549
At 31 August 24	7,549	7,549
