1. STATUTORY INFORMATION

FF Energy LLP is registered in Scotland, registered number SO305321. The registered office address is Millhill, Longside, Peterhead, Aberdeenshire, AB42 5BJ.

The principal activity of the LLP is the generation of electricity.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements
These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the requirements of the Statement of Recommended Practice, Accounting by Limited Liability Partnerships. The financial statements have been prepared under the historical cost convention.

The presentation currency of the financial statements is Pound Sterling (£).

Significant judgements and estimates
In preparing these financial statements, the members are required to make judgements, estimates and assumptions that affect the application of the LLP's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

The following judgements and estimates have had the most significant effects on amounts recognised in the financial statements:

Plant and equipment
The estimates and assumptions made to determine asset lives require judgements to be made as regards useful lives and residual values. The useful lives and residual values of the company's financial assets are determined by management at the time the asset is acquired and reviewed annually for appropriateness. The lives are based on management experience with similar assets. The depreciation rates applied are outlined below.

Turnover
Turnover is measured at the fair value of consideration received or receivable, taking into account the amount of any discounts and rebates allowed by the entity, but excluding value added tax and other sales taxes.

Production of electricity
Income is recognised in the period in which the electricity has been generated.

Tangible fixed assets
Depreciation is provided at the following annual rates in order to write off the cost less estimated residual value of each asset over its estimated useful life.
Plant and machinery etc - 5% on cost

2. **ACCOUNTING POLICIES - continued**

Financial instruments
The LLP has financial assets and financial liabilities of a kind that qualify as basic financial instruments.

Debtors
Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

Cash and cash equivalents
Cash and cash equivalents comprises cash balances. Bank overdrafts that are payable on demand and form an integral part of the company's cash management are included as a component of cash and cash equivalents for the purpose only of the cash flow statement.

Creditors
Short term trade creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

Provisions
Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Hire purchase and leasing commitments
Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.
